

TBOK™

TACTICAL BLOW-OUT KIT

Product No: TBOK - Tactical Blow-Out Kit
Dimensions: 8.25" x 7.25" x 1.75"

The customized medical Tactical Blow-Out Kit provides a unique housing system for individual trauma supplies for the operator. The exterior is constructed with durable Cordura® Nylon with several customized pockets to secure standard medical supplies such as trauma scissors and tourniquets. A rugged double zipper enclosure exposes the interior completely allowing free access to individual supplies. The interior has the flexibility and size to individually store several medical supplies (i.e. bandages, airway tubes, etc.) with adjustable Velcro straps or the interior can house a standardized, self-contained, vacuum-sealed, complete medical blow-out kit (i.e. TMK-LE™) which is secured by an elastic strap. Each TBOK is supplied with a quick release belt attachment and a leg stability strap to provide for contoured comfort that is unobtrusive and can be easily adapted to any operator's gear configuration. **Custom configurations available.**

CONTURED COMFORT THAT IS UNOBTRUSIVE

EASILY ADAPTED TO ANY OPERATOR'S GEAR CONFIGURATION
