

TMK-LESM

TACTICAL MEDICAL KIT - LIGHT EDITION

TMK-LE – Tactical Medical Kit – Light Edition

The TMK-LE is a high quality environmentally sealed tactical first responder kit uniquely designed for immediate treatment of trauma related injuries. Our innovative design vacuum seals each individual bandage and dressing with a commercial plastic that is easy to tear open. The kit is then assembled and vacuum sealed as a unit allowing for a double vacuum seal which ensures the kit does not lose its convenient size and environmental resistance.

ENVIRONMENTALLY DOUBLE SEALED TACTICAL RESPONDER KIT
